

Call for contributions

Book Series “Higher Education. Linking Research, Policy and Practice”.

The series *Higher Education. Linking Research, Policy and Practice* (<https://brill.com/view/serial/EAIR>) investigates and discusses a diverse range of topical themes in the broad field of Higher Education, such as: trends in strategic management and governance, new insights in (digital) teaching and learning methods, sustainable HR policy, research excellence, third mission policy, or renewed approaches to transnational cooperation and internationalisation.

The books in this series form a unique compilation of **selected papers presented at the yearly EAIR Forum** which is an international association for higher education researchers, practitioners, students, managers and policy-makers. Herewith the books not only bring together a range of well-selected topical papers, but also a diversity of perspectives: scientific investigations of reputed scholars, critical evidence-based papers of third space professionals, and/or policymakers’ perspectives on the daily practice and management of higher education institutions and systems. In line with the history of EAIR, the series aims to cross boundaries between types of activities and seeks to cater for a mix of contributors.

Since the start of the series, already four volumes have been published. For the latest volume, have a look at: <https://brill.com/display/title/72952>

Authors who submitted a proposal to the EAIR Forum 2025 are **cordially invited to submit their proposal as a contribution to the seventh book volume that will be published in July 2026**. The theme of the book will be in line with the theme of the forum: **“Openness: a Mission Challenged”**.

Book chapter proposals can be sent by e-mail to our volume Editor-in-Chief Jannica Budde (jannica.budde@che.de) **before September 12th, 2025**. For the book chapter proposal, the initial abstract proposal to EAIR will suffice. Be aware that the editorial team will have to be selective about the chapters that will be included in the volume, and that all chapters will be peer reviewed. Authors will be notified about the decision of the editorial team at the end of September.

On behalf of the Series Editors,

Bruno Broucker, Ton Kallenberg, Rosalind M.O. Pritchard & Kurt De Wit
